Intro

# Civic, the Brand

All of us connected to the Civic platform are the Brand. The logo, colors, typography, etc is all meant as shorthand for expressing our intent and values.

## The Guide

This Brand and Style Guide is an iterative document that will be updated as the Platform matures. Please reach out to us in [#product\\_design](#) channel with any questions about usage or suggestions for improving this guide.

## Values

Data for the People, by the People  
Story over Framework  
Usable over Pretty

Neutrality over Partisanship  
Inclusion over Specificity  
Clarity over Saturation

# Civic, the Platform

Civic is a radical new open data platform that enables engaged exploration of civic analytics. We make public information, public knowledge.

Powered by the people, for the people.

## The Purpose

The purpose of this product is to showcase the power of open data and to cultivate new prosperous relationships among Hack Oregon, community organizations and citizens alike.

## Values

Accessibility

Accuracy

Authenticity

Curiosity

Discoverability

Engagement

Inclusion

Speed

Transparency

Usability

Utility

Warmth

Logos

## Quick Usage

This quick usage guide should assist in using the appropriate logo version for most applications. Examples of each version in use follows. All Logos should carry the “Built by Hack Oregon” with the “Code Tree” except for special circumstances approved by Hack Oregon.

### Step 1: Select Orientation Type

Select the appropriate orientation and size for the space in which the logo will appear.

#### Stack

Standard go-to Logo. Use in tall or square spaces.

#### Wide

Use in wide spaces such as headers or color bars.

#### Icon

Use only when standard “CIVIC” logo has already been used or in some primary brand content where “CIVIC” is already understood by the audience.

### Step 2: Select Color Version

Select the appropriate color version for the background in which the logo will appear.

#### Standard

Standard go-to Logo. Use on light solid-color backgrounds.

#### Invert

Use on dark solid-color backgrounds.

#### Single Color

Use on multi-color or photographic backgrounds. Also useful for any other application where only one color can be used such as in printing.

Color

### **Plum (Primary)**

Hex: #201024

RGB: 32,16,36

Used for primary brand content such as logo, headings, backgrounds.

### **Salmon (Secondary)**

Hex: #EE495C

RGB: 238,73,92

Used in logo and action color within the platform.

### **Plum Light (Tertiary)**

Hex: #726371

RGB: 114,99,113

Compliment to primary for paragraphs and secondary content.

### **Medium**

Hex: #AAA4AB

RGB: 170,164,171

Used for primary brand content such as logo, headings, backgrounds.

### **Subdued**

Hex: #F3F2F3

RGB: 243,242,243

Used in logo and action color within the platform.

Housing

**Housing**

Hex: #3E75AC

RGB: 62,117,172

Homelessness

**Homelessness**

Hex: #75568D

RGB: 145,85,161

Budget

**Budget**

Hex: #329F97C

RGB: 50,159,124

Transportation

**Transportation**

Hex: #E87220

RGB: 232,114,32

Emergency  
Response

**Emergency Response**

Hex: #D7075F

RGB: 215,8,95

Rubik Medium

- H1 — Rubik Light in 36 point
- H2 — **Rubik Bold in 21 point**
- H3 — **Rubik Black in 18 point**
- H4 — **Rubik Black in 16 point**
- H5 — **Rubik Bold in 13 point**
- H6 — **Rubik Bold in 11 point**

**Large Paragraph** can be used as in intro paragraph or callout within content. Vivamus vitae odio *tempor neque* iaculis iaculis. Vestibulum ante ipsum primis in faucibus orci luctus et ultrices posuere cubilia Curae; Aliquam gravida risus nibh, non *rutrum ipsum* efficitur at. Fusce volutpat nisl nec odio aliquet facilisis. Integer eu lacus metus. Mauris tortor lectus, pulvinar a aliquet vel, venenatis a diam. Vivamus et lorem feugiat, venenatis justo vel, luctus eros.

Merriweather  
Regular, 16px

Otherwise, **Normal Paragraph** should be used throughout the content. Vivamus vitae odio *tempor neque* iaculis iaculis. Vestibulum ante ipsum primis in faucibus orci luctus et ultrices posuere cubilia Curae; Aliquam gravida risus nibh, non *rutrum ipsum* efficitur at. Fusce volutpat nisl nec odio aliquet facilisis. Integer eu lacus metus. Mauris tortor lectus, pulvinar a aliquet vel, venenatis a diam. Vivamus et lorem feugiat, venenatis justo vel, luctus eros.

Merriweather  
Regular, 13px

Vivamus vitae odio *tempor neque* iaculis iaculis. Vestibulum ante ipsum primis in **faucibus orci** luctus et ultrices posuere cubilia Curae; Aliquam gravida risus nibh, non *rutrum ipsum* efficitur at. Fusce volutpat nisl nec odio aliquet facilisis. Integer eu lacus metus. Mauris tortor lectus, pulvinar a aliquet vel, venenatis a diam. Vivamus et lorem feugiat, venenatis justo vel, luctus eros.

Action inside paragraph.  
Just add Salmon.

Vivamus vitae odio *tempor neque* iaculis iaculis. Vestibulum ante ipsum primis in faucibus orci luctus et ultrices posuere cubilia Curae; Aliquam gravida risus nibh, non *rutrum ipsum* efficitur at. Fusce volutpat nisl nec odio aliquet facilisis. Integer eu lacus metus. Mauris tortor lectus, pulvinar a aliquet vel, venenatis a diam. Vivamus et lorem feugiat, venenatis justo vel, luctus eros.

Action outside of paragraph.  
Switch to Rubik Medium and add Salmon.

**Read More**

Use Roboto Condensed within visualizations and anywhere else with tiny text or numbers.

It is condensed (allowing more content in smaller areas) and has good letter spacing and form hints (really legible down to 11px on digital devices).

If a visualization displays larger numbers or text, feel free to use the heading typography, Rubik instead of Roboto Condensed.

# Visualizations

This portion of the style guide is for best practices on the data visualizations. The Civic platform uses Recharts (<http://recharts.org/>) as the primary library for basic charts.

For more information on data visualization types and best practices, see the following resources:

**Data Viz Catalogue**

<http://www.datavizcatalogue.com/>

**How to Design Charts & Graphs (from Hubspot)**

[https://cdn2.hubspot.net/hub/53/file-863940581-pdf/Data\\_Visualization\\_101\\_How\\_to\\_Design\\_Charts\\_and\\_Graphs.pdf](https://cdn2.hubspot.net/hub/53/file-863940581-pdf/Data_Visualization_101_How_to_Design_Charts_and_Graphs.pdf)

Color should be used selectively to highlight an important insight into the data. Only diverging if the story calls for it.

Ideally, each visualization has a limited color palette.

Keep it simple and readable.

If you are looking for a primary insight, highlight that with your team color.

Use a monochrome palette based on your primary team color for supplementary data.

Don't overload visualizations with too much data. Don't overuse color without purpose.

Use the right visualization type for the message you are trying to convey.

## Scatter Plots

Scatter Plots show joint variation of two data items.

## Pie and Donut Charts

Pie Charts are used to compare quantities of different categories within a relationship.

## Line Charts

Line Charts track changes or trends over time and show the relationship between two or more variables.

## Bar Charts

Bar Charts are used to compare quantities of different categories

Interface

This portion of the style guide refers to the User Interface of Civic, the platform. It provides an overview as well as a page by page breakdown of its main features and interactions.

Desktop Prototype: [https://invis.io/F8ALM7AJV#/212434100\\_Desktop\\_1\\_-\\_Home](https://invis.io/F8ALM7AJV#/212434100_Desktop_1_-_Home)

Mobile Prototype: [https://invis.io/AQ9UA35Y2#/212337781\\_Mobile\\_1\\_-\\_Landing\\_Page](https://invis.io/AQ9UA35Y2#/212337781_Mobile_1_-_Landing_Page)

For a more in-depth technical definition, refer to the Civic Tech Specs documentation:

[https://docs.google.com/document/d/110jvQgOq7KQ\\_t55d52lNY4f5bDCOTJQZRmGybv9ohwA/edit?usp=sharing](https://docs.google.com/document/d/110jvQgOq7KQ_t55d52lNY4f5bDCOTJQZRmGybv9ohwA/edit?usp=sharing)

The Civic platform consists of a main landing page that links to the current project collections. Within a Collection, each card can be viewed in more detail and shared individually.

### Home or Landing

The platform landing page, all current projects are linked from here.

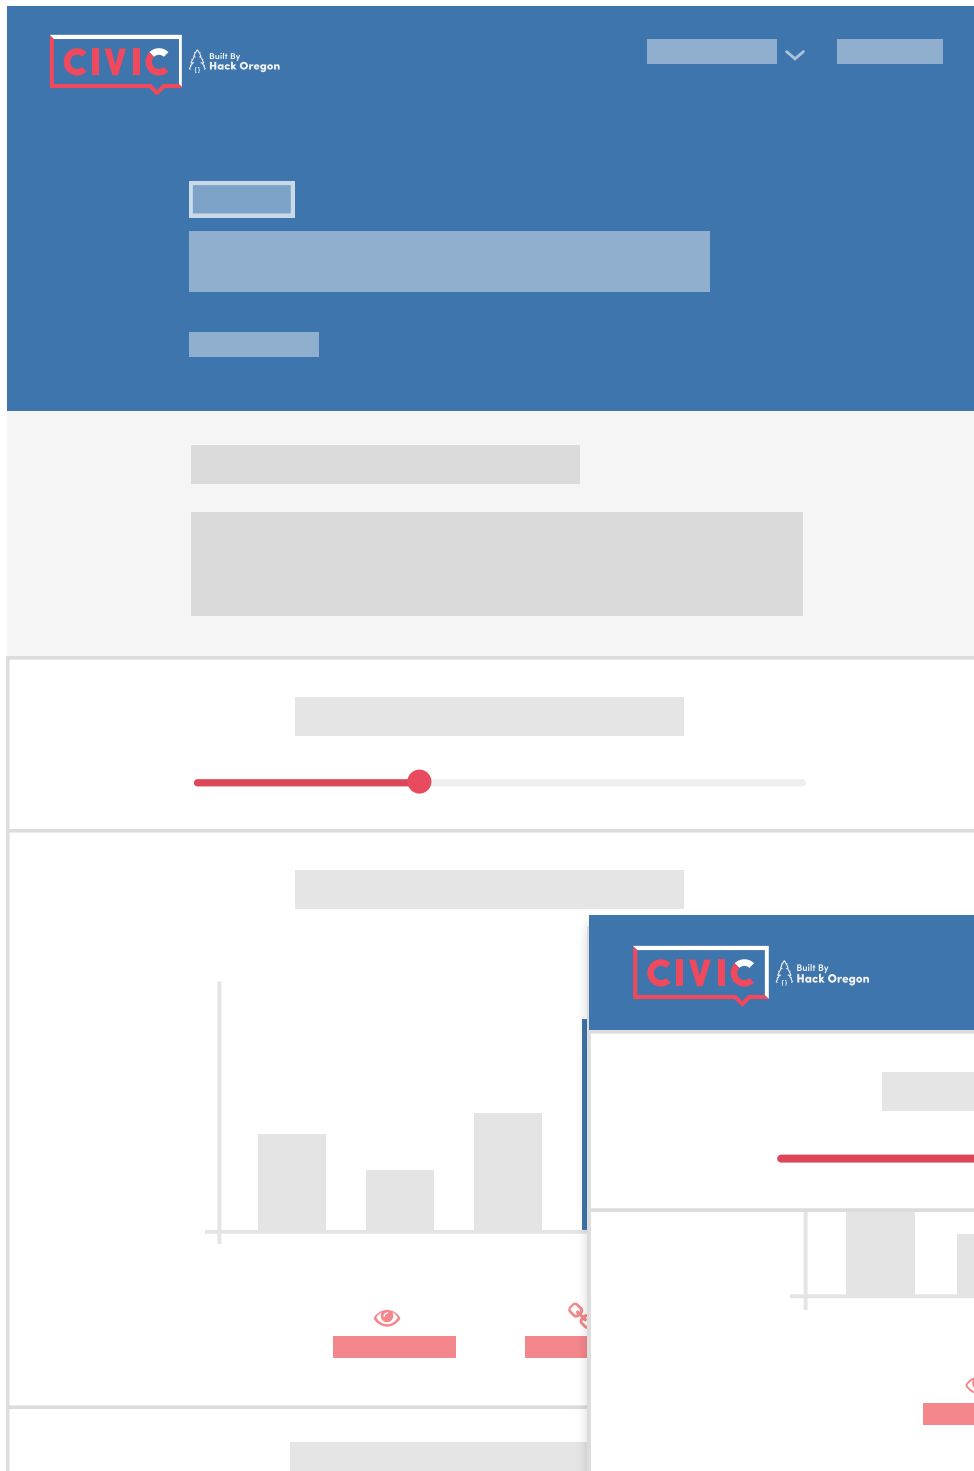

### Collection View

A collection of cards and non-card assets that tell a cohesive narrative.

### Card View

A view of a single card with details on the context of the data and the sources.

## Collection Hero

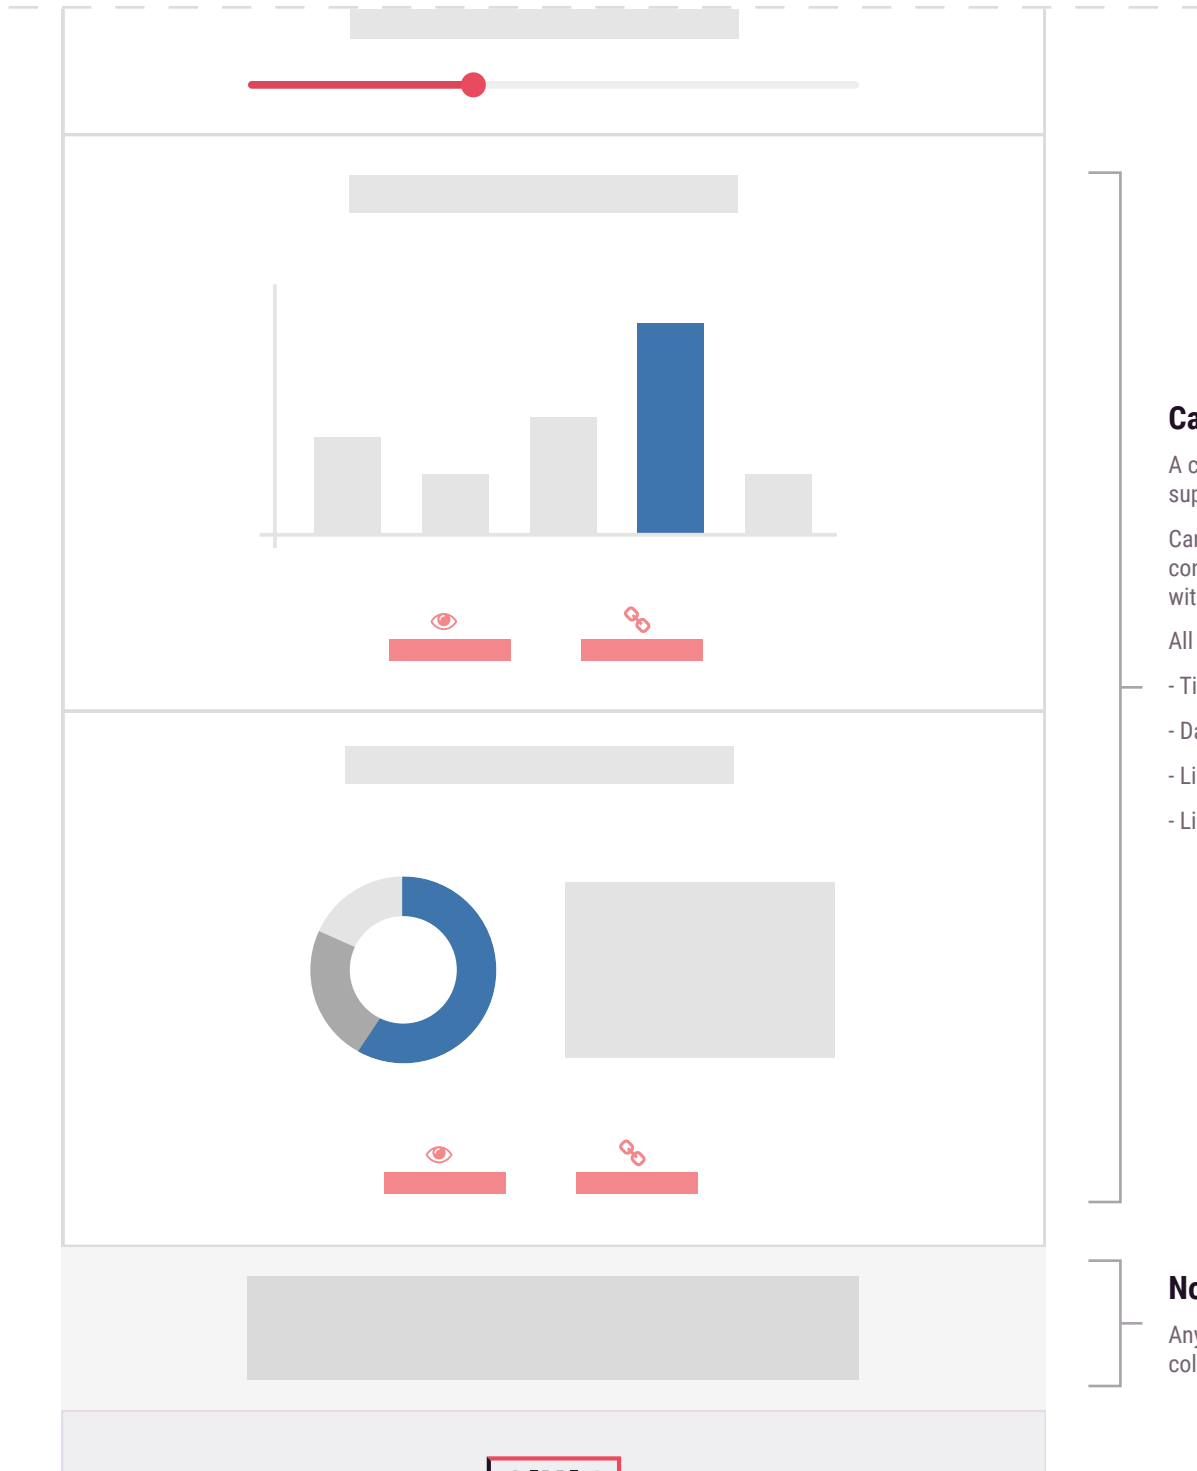

Contains the title, main collection tag, and link to copy collection. Background for the header is a data-based illustration or design that is based on data from the project.

## Collection Intro

Text to introduce the collection (optional).

## Collection Controller

Interactive control that changes data across the collection. On scroll it stays with the user (see below).

### Cards

A card contains a visualization that supports the narrative of the collection.

Cards can optionally use the global controller to show further interactivity with the data.

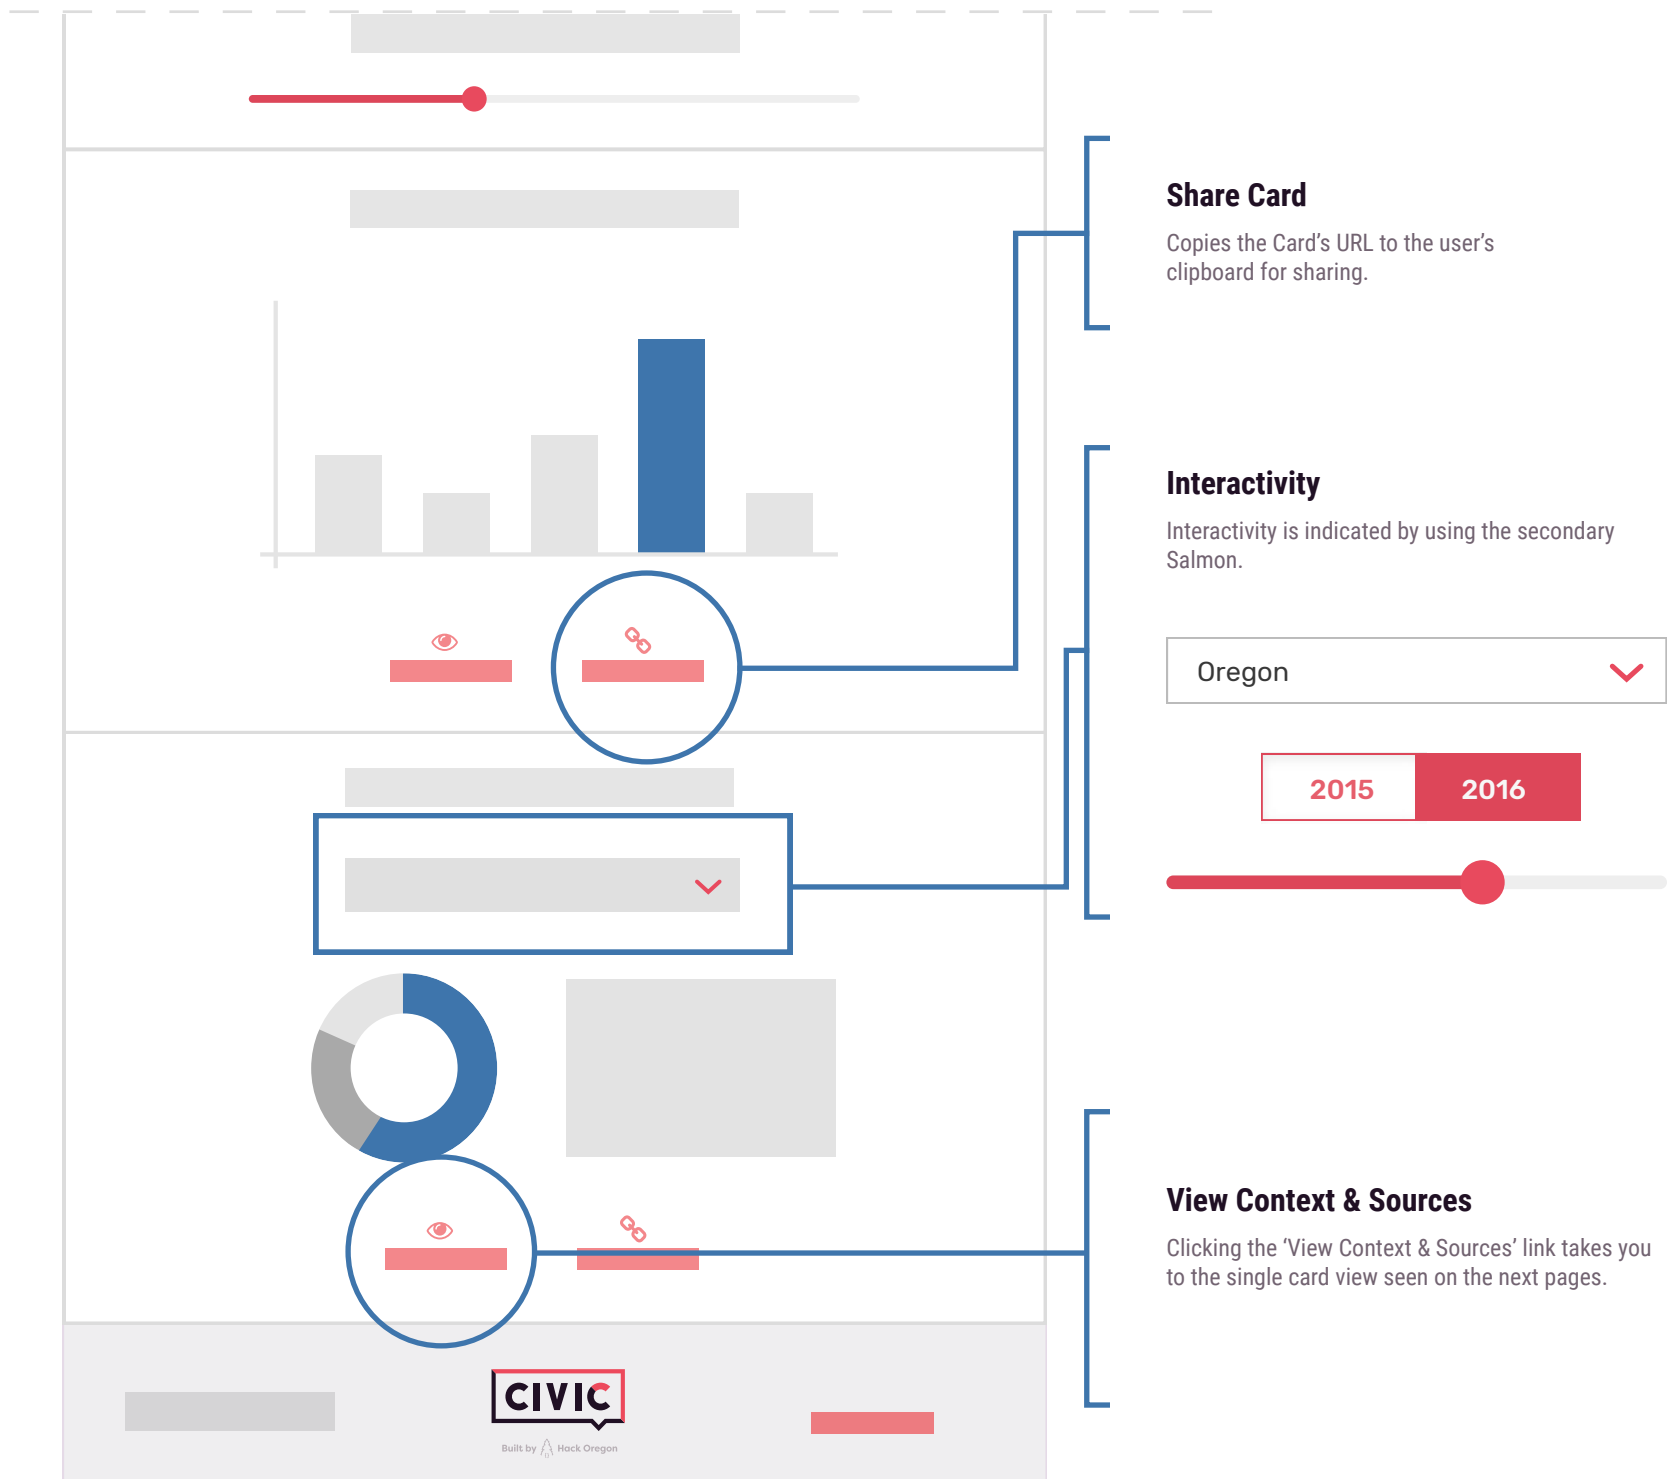

All card must contain:

- Title
- Data visualization
- Links to context
- Link to copy link to share

### Non-Card Asset

Any extra narrative information for the collection.

### Card Header

Replaces the collection title with the card title.  
Contains a link back to the collection and link to copy for sharing.

### Collection Controller

Global control brought over from the main collection.

### Card Content

Content of the card from the main collection. All card specific controllers brought in as well.

### Context & Sources

Provides information about the data used in the card and the sources for this data.

Contains a link back to the collection and link to copy for sharing.

### Tags

Tags consist of information about the data sources used and the type of chart.

Ex. Census, Bar Chart, Housing

Fin.
